

CENTRO-FREEZE 2

CENTRO-Freeze 2

Solves your blocking problems

CENTRO-Freeze 2 cools the bubble right before the lay-flat with a smooth but powerful stream of chilled air.

Boost Your Output:

Achieve higher productivity in warm ambient conditions and with low machine heights.

No Anti-block Needed:

Eliminate the need for anti-block additives while maintaining top-quality results.

Perfect Air Distribution:

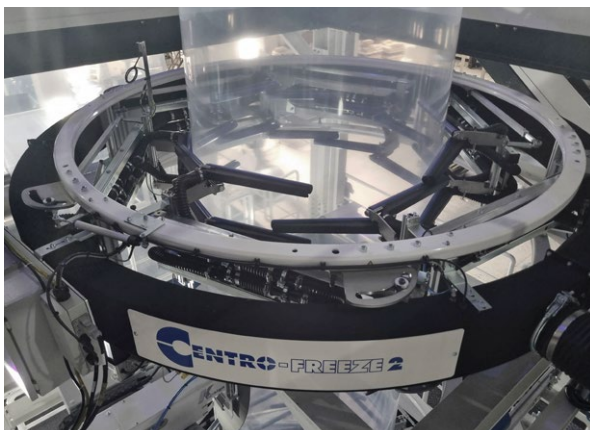

Ensures evenly distributed air for optimal performance.

Quick ROI:

Fast amortization thanks to increased efficiency and reduced costs.

Compact & Efficient Design:

Space-saving construction that also functions as a supporting cage.
